This authorization is effective from: _____ until: _____
(Start date) (End date)

Physician's Signature: _____ Date: _____

Physician's Phone: _____

Instructions for Parent(s)/Guardian(s)

1. Medications that parents can give approval include but are not limited to: OTC Acetaminophen, Ibuprofen or other analgesics, antibiotics or other medications that have been prescribed by a physician for a short term (less than 10 days).
2. Medication **must** be labeled with child's first and last name, name of medication, the dosage amount, and the time or times to be given and provide the dosing method (pill crusher, any supplemental dosing methods, etc.) Medications must be in the original container with a single dose for the day (if applicable), and the prescription label or direction label attached. We do not hold multiple days' worth of medication on site.
3. It is highly encouraged for parents to administer longer term medication before or after the program if possible for dosing schedule.
4. All emergency medications require a physician's signature. Examples include but are not limited to: inhalers, EpiPen's, anti-histamine's, insulin, seizure medication or any other medication treatment for a long-term disability or medical condition. Review of medication and specific training for staff may be requested by parent.
5. Diabetes Management Plans will require additional medication administration information and necessary forms will be provided if this medication is needed.
6. Use of sun screen or insect repellent also requires written parent authorization noting any known adverse reactions to particular brands. Please use non-prescription form.
